Executive Summary

Healthcare executive with 18+ years of experience leading transformation across hospital systems, digital therapeutics, and venture-backed health platforms in the U.S., LATAM, and GCC. Proven ability to drive strategic pivots, scale cross-functional teams, and integrate evidence-based interventions into clinical and operational workflows to improve outcomes and financial performance. Experienced in building sustainable healthcare infrastructure, aligning institutional stakeholders, and delivering measurable growth in complex, multi-market environments.

EXPERIENCE

VP Commercial | Mango Sciences **|** Riyadh, Saudi Arabia **Jul 2026 – Present**

- Led Saudi Arabia commercial strategy and institutional business development for Mango Sciences' AI-driven oncology platform.
- Built government and hospital relationships with target institutions including King Faisal Specialist Hospital, CNHI, and NUPCO.
- Departed following company's reallocation of resources to a newly closed US market deal.

CEO & Founder | Kilow (Sanabil Venture Studio) **|** Riyadh, Saudi Arabia **Jul 2024 – Apr 2026**

- Founded and led Saudi Arabia's first integrated lifestyle intervention infrastructure platform embedding behavior-change into clinical care pathways for chronic disease prevention and management.
- Secured $2.5M investment and built a 15-person cross-functional organization across product, engineering, medical, growth, and partnerships.
- Led pivot from DTC obesity treatment to a B2B2C chronic disease platform aligned with national preventive health priorities.
- Designed and operationalized the SHIFT model to integrate lifestyle modification alongside therapeutic guidelines.
- Built commercial, regulatory, and economic infrastructure to enable scalable institutional deployment.
- Achieved 80% user retention with an average subscription duration of 3.1 months.

CEO & Entrepreneur in Residence | Shams Health (BLDR Ventures) **|** Riyadh, Saudi Arabia **Nov 2023 – Mar 2024**

- Led launch and early traction efforts for a direct-to-consumer digital therapeutic targeting lower back pain, overseeing product, engineering, and growth.

Global VP of Product | Examedi | Mexico City, Mexico **Sep 2022 – Sept 2023**

- Led a 10-person global product organization across multiple LATAM markets.
- Defined enterprise product strategy aligned with multi-market growth and operational scalability.
- Directed full platform redesign and rebuild, improving user journey and service orchestration.
- Institutionalized a data-driven development culture, embedding analytics, experimentation, and research into roadmap decisions.
- Strengthened cross-functional alignment across product, medical, operations, and growth to accelerate iteration velocity.

Co-founder & CEO | Mayv **|** San Francisco, CA **Jan 2019 – Dec 2021**

- Co-founded a digital therapeutic for chronic pain, translating evidence-based pain psychology into a scalable asynchronous care model.
- Led product strategy, fundraising, clinical positioning, and go-to-market execution.
- Designed digital care architecture enabling remote behavioral intervention without reliance on synchronous clinician time.
- Built and managed multidisciplinary teams across product, engineering, and clinical advisory.

MBA Summer Associate | Casa Verde Capital **|** Los Angeles, CA **Jun – Aug 2018**

- Participated in the sourcing, evaluation, and diligence process of early-stage companies. Focus was on CPG brands and building a valuation matrix to assess brands in a nascent industry.

Business Development & Strategic Planning Director | Taiba Hospital **|** Kuwait **2014-2017**

- Led hospital-wide 3-year strategic planning process, driving execution through accountable departmental leadership.
- Transitioned compensation to quality-based incentives, increasing patient satisfaction by 15%.
- Implemented quarterly budget reviews, reducing variance and improving financial predictability.
- Led ER reform reducing wait times by 30% and increasing specialist referrals by 40%.
- Modernized billing and revenue cycle systems, reducing cash collection cycle by 30 days.
- Launched homecare and geriatric services, contributing 5% new revenue within 12 months.

Founder & Chief Juicing Officer | Re Juice **|** Kuwait **2013-2017**

- Founded Kuwait's first structured juice cleanse delivery concept; achieved sustained double-digit growth.
- Returned investor capital within first year and distributed 10% annual dividends.
- Implemented vertical integration strategy, sourcing 70% of produce internally and reducing costs by 50%.

Co-founder & CEO | BSG Partners **|** Kuwait **2013-2014**

- Co-founded a healthcare technology venture focused on digitizing hospital billing and revenue cycle systems across Kuwait and Saudi Arabia.
- Raised $300,000 in angel funding to develop and deploy revenue cycle management solutions.
- Built technology to improve coding accuracy, charge capture, and cash flow visibility within GCC hospital systems.
